POTENTIAL PROJECTS

UNIVERSITY of ALBERTA

PLANNING & DEVELOPMENT

INTRODUCTION -

This document was prepared by Planning and Development to serve as a planning tool only, to provide an overview of the potential projects which may or may not materialize over the next ten to fifteen years. It, in no way, should be construed as official planning policy, nor should the building "footprint" be interpreted as potential building size, shape, or final location.

It is further intended that the document be up-dated periodically as necessary to reflect current realities.

Blake F. Pratt, M.R.A.I.C.
